

# Need to see a GP urgently this weekend?

**Vomiting? Ear Pain? Back Ache? Upset Stomach?**

**Ealing GP practices are offering extra appointments on weekday evenings and on Saturdays.**

You can call NHS 111 if you need medical help or advice fast but it's not a 999 emergency. If you call 111 and they think you should see a GP urgently, they may direct you to a local GP practice that is open on weekday evenings and at weekends. Using this service will not affect your registration at your own GP practice.

If you are not registered with a practice, you can still call 111 and you will be directed to the right service for your need.

Calls to 111 are free from landlines and mobile phones.
